Subject: deceased female

Don,

I am hoping that you are on the missing women's task force which is why I am sending you this photo. I'll attach the press release for your info. I just thought that since we don't have an ID on this body yet you might know who she could be. The investigator is Cpl Dave ATTEW from Surrey Serious Crimes.

news release

communiqué

not to be released before: December 21, 2001

Surrey RCMP File: 2001-131239

PUBLIC'S HELP SOUGHT TO IDENTIFY FOUND BODY

The public's help is being sought in order to determine the identity of a woman who was found on Colebrook Road in Surrey.

At 8:00 AM on December 13, 2001 the Surrey RCMP was called to the 13100 block of Colebrook Road for a report of a found body. When officers arrived, they found the body of a woman beside the road. The woman did not appear to have suffered from any obvious trauma and her cause of death is not yet known. In addition, the woman did not have any identification with her and despite media coverage of the event her identity is also not known. This death is being treated as suspicious.

The woman was wearing blue jeans, a black turtle neck shirt, a blue cardigan sweater and brown Hi Tec running shoes. She is believed to be of Asian or First Nations decent and was in her twenties. She is 5'1" and weighs approximately 120 pounds. She has a tattoo of a rose on her right upper back.

Attached to this news release is a composite drawing of the woman. In addition, an electronic version can be found of the RCMP's website located at rcmp-bcmedia.ca

Anyone with information about this woman is asked to contact Cpl Dave ATTEW of the Surrey RCMP at 599-7612. If you wish to remain anonymous call Crime Stoppers in the Lower Mainland at 669-TIPS or outside the Lower Mainland at 1-800-222-TIPS.

2002-01-08 1430 hrs Attendance to Surrey detachment where their file 2001-131329 was reviewed.

On 2001-12-13 at approx. 0750hrs a father and son were driving on Colebrook Road in the 13200 block when they saw a body laying on the side of the road. The males got out of the vehicle and soon discovered that the female was dead. The two called 911 and police attended.

The body was found lying face down and full clothed and was still warm to the touch. The female was wearing a blue sweater coat, orange sweat shirt, blue jeans, orange sweat pants, underwear, socks and black runner. There we no visible signs of trauma and it appeared that she had fallen to the ground. The area in which she was found is a open agricultural area with a few homes, deep ditches and it is not a thoroughfare to any other community or sub division.

Only one witness has been found who advised that she had seen the female walking on the road a few moments prior to he being found, and she appeared to be clutching her stomach area. It appeared to this witness that the person was in some distress.

The autopsy was completed and t apart from a slight bruise on the arm there were no signs of visible trauma or sexual assault. Samples were sent to the lab for toxicology examination.

On Saturday 2002-02-05 the victim was positively identified as WILLIAMS. **CI-PERS** is the foster mother to WILLIAM's children and had last seen her on 2001-12-09. **CI-PERS** advised that WILLIAMS did work the street from time to time and had a alcohol and cocaine problem.

The result to the toxicology was received and there was only a trace amount of cocaine in her system. It was felt by both the investigators
